

Safeguarding Commitment

The Safeguarding Commitment is a statement that churches and Christian organisations can make together to affirm the importance of safeguarding and remind everyone of their shared responsibility to make it happen.

Our commitment to safeguarding

- We commit to each share responsibility for creating an environment that is safe for all
- We commit to pray for our safeguarding lead(s) and those working with children and adults
- We commit to respect the boundaries that are in place to protect others
- We commit to support those in our church who have been hurt or abused
- We commit to provide on-going safeguarding training for all our workers
- We commit to allow sufficient time and resources to make our recruitment of workers safer
- We commit to maintaining an open culture where people are encouraged to share concerns
- We commit to not take offence when challenged about our presence or behaviour
